- BA HONS, LLM, PGCE
- Studied Fine Art & Art History at University of Lancaster
- Favourite Artist: Paula Rego
- Favourite Discipline: Drawing, painting and photography

**Why we love teaching A Level:** Art is all around us whether it be in priceless works of art adorning the white walls of a gallery; the graffiti of a political voice or the scribbles of an infant. Art allows us to see our world and express our individual identity. Steeped in a deep history, A Level Art provides the opportunity develop great independence and character whilst immersed in a community of like-minded individuals.

Studying Art affords our students huge opportunities; from illustrators for the sixth form TERM magazine; to mentors for artists in Year 7 – 11 and attending the prestigious Young Artists in Tuscany Residential.

# Where could Art take me?

## Our students went on to read:

- Immie – Architecture – University of Sheffield
- Izzy – Foundation Art Degree -
- Lottie – Spacecraft Engineering – University of Southampton
- Fin – Automotive Engineering – Harper Adams University
- Hannah – Animation - Nottingham Trent University

- Aaron – Game Art – De Montford University
- Lottie – Fashion Design – Salford University
- Isabella - Marketing and Design – after a Foundation Degree at Manchester Art College
- Suki - Fine Art – after a Foundation Degree at Manchester Art College

“ Art has allowed me the ability to express my individuality and learn how to problem solve as there never is a final answer.”

Amy: Studying Fine Art at Leeds University

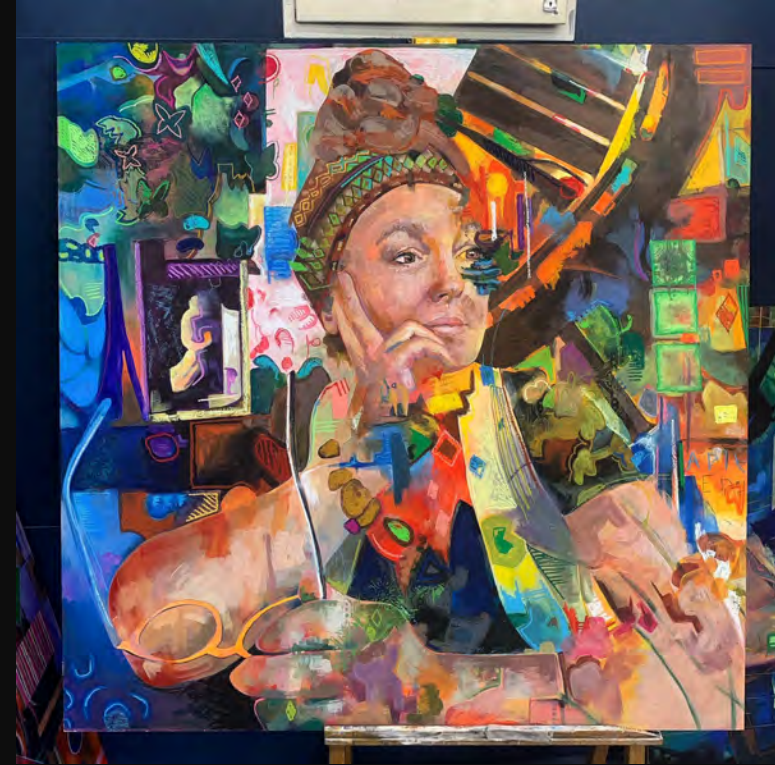

“ Studying Art demonstrates a commitment to learning as you have to be self motivated. Surrounding yourself with other creative students is a release from the everyday world and encourages individuality.”

Immie: Current Y13 pupil applying to study Architecture.

“I’d say Art makes you a more independent individual, because everyone is doing something different so therefore you have to take risks and try new ideas to better your creative skills.”

Fin: Studying Automotive Engineering – Harper Adams University

**Real world skills:** Emotional intelligence, analytical and evaluative skills, critical thinking, problem solving, adaptability and resilience, creativity.
