

Why study A Level Economics at Tarporley Sixth Form?

- Mrs Berry
- Head of Business & Economics
- BA HONS Business Management MMU
- Favourite area of teaching: **Theory of the Firm but I love all the topics!**

- Mrs Rowlands
- BA Hons
- Studied International Business Management at Staffordshire University
- Favourite area of teaching: **The market mechanism, market failure and government intervention in markets**

Why we love teaching A Level: Economics is behind everything from why people move overseas for work, to the price of our food. It explores how individuals, firms and governments interact to work out the best way to allocate the world's limited resources. You'll learn about the relationship between economics and societies. This will help you better understand current and past government policies. It will also help you make sense of the decisions we hear about in the news.

Economists work in many sectors, but are particularly sought after in Business, Finance and Government. Common careers paths for Economists are: Statistician, Financial Risk Analyst, Investment Analyst, Insurance underwriter, Government Policy Officer, Pension Scheme Manager

Where could Economics take me?

Our students went on to read:

- **TOM:** Economics at Aston University
