Careers Newsletter

National Apprenticeship Week Special

Dear Students, Parents and Carers,

National Apprenticeship Week takes place from **Monday 8th February to Sunday 14th February.**

Apprenticeships are an important career pathway for students today and this edition aims to provide both students and parents with information about apprenticeships, as well as provide access to a range of activities students can engage with to broaden their understanding.

Students can access a range of resources in the [National Apprenticeship Week folder](#) on the VLE.

Throughout the week there are various virtual events taking place and links to these can be found on the events page and further apprenticeships vacancies can be found on the Apprenticeship Opportunities page.

[The National Apprenticeship Show](#) takes place on **Wednesday 10th February from 10am – 6pm.**

Finally, I have added some information regarding another pathway that students may be less familiar with, the Traineeships route.

I hope you find the information and resources useful.

Kind regards,

Mrs Rowlands

Where can I find out more information about careers in school?

Parents, students, staff and employers can now access our new Careers Section on the Tarporley High School website.

Students can also access the Careers area on the VLE

Careers boards located inside year group zones

Half-termly newsletter for students, parents and staff

The Careers Team

Mrs Rowlands, Careers Lead

Responsible for delivery of the school's careers programme and holds an overview of careers provision for the Gatsby Benchmarks.

Mr Nuttall, Student Development SLT

Assistant Headteacher with responsibility for student development, including Careers provision.

Awaiting photo

Mrs Robson, Careers Advisor

To provide impartial information, advice and guidance, helping our students to make realistic choices about their education, training and work.

Astra Zeneca Apprenticeships	Degree	Many Higher and Degree apprenticeship opportunities available including science, technical and business.
Barclays		See website for information and details about our latest opportunities.

What is a Traineeship?

A traineeship is a skills development programme that includes a work placement. It is funded by the government and is free of charge to participate in.

A traineeship can last from 6 weeks up to 1 year, though most traineeships last for less than 6 months.

They aim to help 16 to 24-year olds to increase confidence and self-esteem around employment and to provide a greater understanding of what employers are looking for. They will also help improve English, Maths or Digital skills qualifications, where required. This will all help you to secure a job in the future.

Traineeships are also available for 25-year olds with an Education, Health and Care (EHC) plan. All trainees must be eligible to work in England.

The purpose of a traineeship is to give you the opportunity to improve your skills and increase your chances of getting paid work.

Who are traineeships for?

If you are a young person who is...

- not currently in full-time employment
- has little work experience
- are aged 16 to 24 (or 25 with a EHC plan)
- you're qualified up to Level 3 or below (Level 3 is equivalent to A Levels)
- and could be 'work ready' within 6 months ...

...then a **traineeship** could be for you!

Frequently Asked Questions

DON'T I HAVE TO STAY IN SCHOOL UNTIL I AM 18?

You have to stay in education or training until your 18th birthday, however, this doesn't mean you have to stay in school.

You have a choice about how you continue to participate in education or training and this includes full-time education at school or college, doing an apprenticeship or traineeship, or finding a job or volunteering whilst studying part-time.

WHEN CAN I START A TRAINEESHIP?

Traineeships can start at any time throughout the year, not just in September like school or college.

You can therefore start applying whenever works best for you as long as you are 16 or over.

I HAVE A PART TIME JOB - CAN I STILL DO A TRAINEESHIP?

Yes absolutely!

You will need to speak to your training provider about the details, but the good news is that you are permitted to work for up to 16 hours per week and still undertake a traineeship programme at the same time.

WHAT MAKES A TRAINEESHIP DIFFERENT TO AN APPRENTICESHIP? WHICH SHOULD I DO?

The main difference is that a traineeship isn't a job and you don't get paid, but traineeships are seen as a stepping-stone to an apprenticeship.

It is a brilliant way to gain skills and experience in a real work placement and will hopefully lead you onto a paid apprenticeship where you could also gain a qualification.

How do traineeships work?

STEP 1

You will need to select a training provider (see the next page). This could be a local college, or an independent training provider.

STEP 2

You will start on your traineeship programme.

Your training provider will work with you to understand the type of work experience placement that might be most suitable and enjoyable for you.

Your training provider will help to design your traineeship programme and will help you to plan how long it will last for, and what your programme will include.

STEP 3

You could also start working towards qualifications that will support you to move on into further training or employment. This will include learning the skills required in the workplace and support in writing your CV.

STEP 4

Depending on what has been agreed with your training provider, you may begin your learning with the training provider or your work experience placement with an employer, or start them both at the same time. This will be agreed based on your individual needs.

The learning with the training provider could be a mixture of in the classroom and possibly some online studies. They will also help you to work towards achieving your English, maths and digital qualifications (if you need them).

Your work experience placement will be completed with an employer.

This will be at least **70 hours of meaningful work at a placement**, providing insight, experience and sector-focused skills of the workplace.

STEP 5

At the end of the traineeship, if a role with the employer becomes available, you will be able to interview for the position.

If there is not a role available, you will participate in an exit interview and receive feedback to help you to prepare for future interviews.

How do I find a traineeship?

There are different ways to find a traineeship.

- By asking your local college or training provider if they have opportunities
- By speaking to your school/college careers advisers or the [National Careers Service](#)
- By speaking to your Jobcentre Plus adviser if you're in receipt of benefits
- Through the government website called '[Find a traineeship](#)'
