

A Level Economics Transition Materials: Year 11 - 12

Head Start in A-Level Economics aims to provide a structured transition or bridging programme for students to help you make the most of your time during the summer term and enable you to start A-Level Economics with greater confidence.

Each session comprises a sequenced collection of short videos, Ted talks, interactive tasks and research activities. It is a great way to get ahead and prepare for your Economics A Level studies.

Take a look at the first two sessions:
